BIG FIRES.

Detroit Suffers a Loss of Over $300,000—Kansas City Paint Works Burn.

DETROIT, Mich., March 3.—The five story building on West Larned street, occupied jointly by William Reid, wholesale dealer in stained and plate glass, paints and oils, and the Detroit Fruit Tablet and Confectionery company, burned last night. The building destroyed belonged to David Whitney and the loss on it will be $50,000, insured. William Reid's stock was worth at least $130,000 and insured for $110,000. Owing to the nature of the stock it is a complete loss. The confectionery company's stock was damaged about $10,000. The neighboring buildings were also somewhat damaged. The entire loss is nearly $300,000, on which there is $141,000 insurance.

While the firemen were playing this morning on the ruins of William Reid's glass warehouse, on West Larned street, which burned last night, a joist broke carrying down to the ground the portion of the fourth floor upon which the men were at work. All but one of the firemen landed on top of the debris. Captain Haven escaped without injury. Lieutenant John Causley had his knees badly bruised and Pipeman Oscar Reidy received a scalp wound. Pipeman Charles H. Vise was badly cut and bruised, and perhaps received internal injuries. He and Causley were taken to Grace hospital. Pipeman William Dungerow was not so fortunate. He fell under a mass of smoking ruins. The firemen worked desperately, and after fifteen minutes' hard work extricated him from his terrible position. He is probably fatally injured.

KANSAS CITY, Mo., March 3.—At 1 o'clock this morning a general alarm called out the entire fire department to the establishment of the Kansas City White Lead and Linseed Oil company. The establishment occupied an isolated tract of ground and the fire was confined to the oil works, which were entirely consumed. The loss is about $65,000; partially insured.

NEWBURYPORT, Mass., March 3.—The Boston and Maine railroad station here was completely destroyed by a fire that originated in the baggage room from some unknown cause at 12:30 a. m. The loss is estimated at $25,000, insured.

SOMETHING ON FOOT.

A Great Railway Deal Hinted at But no Definite News.

ALBANY, N. Y., March 3.—The rumors affecting a lease or sale of the Delaware and Hudson railroad system are still in the air, but it is difficult to find the foundation for such reports. Mr. Edwin Young, attorney for the road, was seen today, but he said he knew nothing about the matter. He did not believe there was anything in it. In his private opinion Mr. Young declared he did not believe the Delaware and Hudson officials had conferred or negotiated with the representatives of any other road relative to entering into an arrangement with them. He thought the talk of a lease being procured by the Pennsylvania or Central roads was all talk and not likely to be productive of anything. As to the reports of the sale of the road, there was little more to say. A purchase can be effected by buying up the stock, but he knew nothing of any such prospect. Mr. Young said that he thought the foundation for the agitation of the matter lay in the uneasy feeling prevailing in speculative circles in Wall street, due to the recent big coal combination. Some people had been surprised when that combination had been brought about and thought the Delaware and Hudson should be in something of the sort, hence they were taking it for granted that something was on foot.

A BOLD HIGHWAYMAN

Turns Out to be a Murderer Who is Wanted in Montana.

BUTTE, Mont., March 3.—Oliver Curtis Perry, the bold highwayman who went through an express car on a New York Central train ten days ago, is wanted in Montana. He is believed to be the man who killed Andy McCoy in Georgetown, Deer Lodge county, in 1887 or 1888. McCoy engaged in a bar room quarrel with one Oliver C. Perry, who picked up a cuspidore, hit him on the head and killed him. Perry made his escape, and although a large reward was offered, he was never again heard from.

PARTED AT THE ALTAR.

A Sensational Marriage at Waterbury, Connecticut.

WATERBURY, Conn., March 3. The marriage of Miss Mary J. Hemmingway, daughter of a wealthy citizen of Waterbury, Conn., to George V. Gardner, of New York, has caused a sensation here. The fact that the bride immediately after the wedding returned to her home while the husband went to New York, and that neither the bride nor groom have seen each other since, leads to the belief that the marriage was an elopement and that the parents of the young woman are trying to a have the marriage annulled on the ground that she is not of marriageable age.

REV. PURVIS

Resigns His Position to Take a Chair in the Princeton Seminary.

PITTSBURG, Pa., March 3.—The Rev. Dr George T. Purvis, pastor of the First Presbyterian church, of this city, announced to the church session last night that he had accepted the professorship of New Testament literature at the Princeton Theological seminary and requested that the session take no action other than releasing him from his present charge. Dr. Purvis was graduated from Princeton seminary in 1876. He is one of the most prominent ministers in the Presbyterian church. Since coming to this city in 1876 his labors have been wonderfully successful. During his pastorate in Pittsburg Dr Purvis has been the recipient of many flattering calls from various sources.

WHAT DOES IT MEAN?

The Gossips of Washington Now Busy Discussing Ex-Secretary Whitney's Visit to That City.

WASHINGTON, March 3.—William C. Whitney put in on appearance at the capitol yesterday afternoon. He did not make himself unduly conspicuous, but before he had been on the ground ten minutes he was in consultation with Senator Carlisle. A few minutes later Senator Hill was called into the conference. A note was then sent over to the house and in another fifteen minutes the three politicians were wending their way, at the invitation of Speaker Crisp, to the speaker's room, where Tom Murray had been directed to serve one of his most delectable lunches. Messrs. Whitney, Hill, Carlisle and Crisp remained in the speaker's room for an hour in strictly executive session, and at the close of the conference the ex-secretary departed from the capital as unobtrusively as he came. Democratic leaders are left to conjure the significance of the conference.

"It means," said one who is very near the throne, "that we are going to have harmony with a stuffed club. The party leaders in New York are becoming alarmed at the outlook, and the ex-secretary is believed to have come down to patch up a truce if possible." Mr. Whitney is understood to have been the bearer of a message from Mr. Cleveland with reference to the ex-president's intentions, and these rumors inspired a report at the capital yesterday afternoon that in a short time Mr. Cleveland will publicly announce his withdrawal from the race, at the same time issuing a manifesto defining his attitude on the silver and tariff questions, and calling upon the party to present a solid front for tariff reform, whoever the candidate may be. Mr Cleveland is also expected to repudiate the May convention.

SPIRITED AWAY.

Was Murderer Massey, and the Mob Misses a Hanging Bee.

SHERMAN, Tex., March 3.—Last night a mob of five hundred substantial citizens made an attempt to take Sam Massey, the negro, from the jail where he is confined on suspicion of having wounded the Smith family on Monday night. The party advanced towards the jail, with guns and revolvers and met with no opposition when they demanded the keys from the jailer. It was soon made apparent that Massey had been spirited away and all efforts to find him proved of no avail. William Smith, the head of the family, has been restored to consciousness and says Massey is the guilty party. Physicians have little hopes that the victims will recover. The mob has not yet given up hopes of finding the negro, and the search is being continued.

A CLEVER CROOK.

Walter Selman on Trial in the English Courts.

LONDON, March 3.—At the Marlborough street police court this morning, Walter Selman, said to be one of the most clever crooks in the world, was charged with conspiring with Frederick Pemberton Peach, now awaiting trial, to defraud George Willis Scears, of 104 Regent street, out of £590 by false pretenses. Mr. St. John Wontner prosecuted on behalf of the treasury. This is a continuation of the famous criminal case known as the "great bond robbery," and is one of the romances of crime in England.

STRIKE IT RICH.

The Superior Company Strike a Rich Gold Vein.

DENVER, Col., March 3.—Another big strike was made in the Superior mine on Gold Hill, at the head of Squaw Gulch, in the Cripple Creek gold district yesterday afternoon. A chunk of ore weighing over 150 pounds was brought down to Fremont last night, and it is literally covered with flakes of gold.

FOUNDERED.

The Mary Elizabeth Strikes the Mouse Light House and is Wrecked.

LONDON, March 3.—The Swedish bark, Mary Elizabeth, which left Cochin, China, September 25, bound for London, struck the Mouse light, near the Goodwin Sands, this morning, and foundered at the mouth of the Thames. The crew of the vessel were saved.

The Emperor Prosecutes Publishers.

BERLIN, March 3.—The police have confiscated the issue of the Frankfurter Zeitung of March 1 on a charge of 'lese majeste.' The offense consisted in commenting upon the emperor's Brandenburg speech in a manner offensive to the authorities.

It Takes a Rise.

BOSTON, March 3.—There was a boom in New York and New England stock this morning, and 58 was bid for the stock on the street. The transactions of the stock exchange were on an enormous scale. The price of the stock advanced to 59, but it is now selling at 54⅞.

SPRINGER DYING.

His Friends Give Up All Hopes for His Recovery and Mournfully Await the End.

WASHINGTON, March 3.—Representative Springer, of Illinois, passed a bad night and is much worse this morning. His recovery is now considered extremely doubtful.

A prominent member of the Illinois delegation who has just come from Mr. Springer's residence (2.35 p. m.) says that Mr. Springer's case is hopeless as the erysipelas has reached the brain. The patient, himself, has given up hope.

INDEMNITY CLAIMS.

Chili Greatly Alarmed Over the Situation—They Claim the Amount is Too Large.

VALPARAISO, March 3.—There is great anxiety here to learn if the United States government intends to ask Chili for all of the indemnity claimed by the Baltimore's sailors as published in yesterday's dispatches. In response to the news about indemnity claims, exchange is rapidly falling. The Chilian government has informed all inquirers that it has received no intelligence officially to the effect that such claims will be pressed by the United States. There is great surprise among the bankers at the amount asked and much comment is heard on all sides. It is said that Chili would be very grateful if the United States would substitute a disinterested commission for the present official representative here, to investigate the Baltimore affair and other questions.

The real cause for the resignation of several members of the cabinet last Saturday is said to be that only a few judges were appointed who belonged to the conservative party. Charles Walker Martinez says that his reason for resigning was that he thought that the judiciary ought to have had more conservatives among its membership. Isadoro Errazuriz said he resigned because Chili would continue to witness the political crisis so long as the liberal party cannot control a larger majority in congress. There is a working conservative majority, while the liberal wing is split into three factions. President Montt's efforts to retain a homogenious ministry is a thankless task.

IN A STATE OF SIEGE.

Panhandle Shops Guarded with an Extra Force of Section Hands.

INDIANAPOLIS, March 3.—The machinists who are "out" at the Panhandle shop deny that a single one of their number has left the city for any other point. One of the non-union men from the east yesterday rebelled and intimidated all the other employes of the shop, who fled, it is said, to other apartments. The belligerent fellow was paid off and released. The machinists who are at work are fed and lodged in a couple of cars. The guard about the premises was yesterday largely increased, it is said, by a fresh importation of section men and switchmen from other parts of the line. The strikers say that Derr, who had five arrested for assault and battery, did not loose a day on account of the results of the fight.

POOR NIGGER!

For Killing Two Women He is Lynched by a Mob.

FLORENCE, Ala., March 3.—Posses have been scouring this section for a negro, who brutally beat and nearly killed two white women near Waynesboro, Tenn., yesterday, because they would not give him money. This morning he was captured seven miles from Florence and brought to town. A number of men from the scene of the deed, who were looking for him, at once took charge of the negro and started back towards Waynesboro, the men remarking as they started off: "We will not bother any more white women." The negro will be hung before reaching Waynesboro.

A BAD PREACHER.

Two Deacons Attack Him and One is Killed.

BIRMINGHAM, Ala., March 3.—In Green county Rev. John Clavin, a Methodist preacher, this morning shot and killed William Herdy, a deacon in the church, and fatally wounded David Smith, brother-in-law of Herdy. Herdy suspected Calvin of being intimate with his (Herdy's) wife and attacked him with a cane, when Calvin drew a pistol and fired five shots with the above result. Calvin is in jail at Eutaw.

AN UNFAITHFUL WIFE.

Howard Mason's Fearful Revenge—Cuts His Wife's Throat.

CAMDEN, N. J., March 3.—Howard Mason, of Camden, a former Philadelphia policeman, early this morning shot his wife and cut her throat. He went home at 2 o'clock and found a strange man in the house with another woman and Mason's wife who was in bed. He fired his revolver at the stranger. His wife threw a lamp, setting fire to the bed. He continued to empty his revolver and then cut his wife's throat. The blaze from the burning bed called out the fire department. The fire was extinguished without loss. Mason surrendered and was locked up with Mrs. Helen Walker and Henry Shakey, the two who were in the house. Mrs. Mason was taken to the hospital dangerously injured. She is not dead. The husband expresses no remorse for his act.

THE SAMPSON CASE.

The American Hercules Appears in Court on a Charge of Defrauding His Sweetheart.

LONDON, March 3.—The case of Carl August Sampson, known as the "American Hercules," who was arrested in New York a few weeks ago on a requisition issued by the British authorities, which charged him with obtaining certain diamond jewelry and £770 in money from Mrs. Margaret Bernstein, of this city, on false pretences and brought back to England, was further heard in the Westminster police court this morning. There was a very large attendance and a great deal of interest was shown in the proceedings. Mrs. Bernstein, it will be remembered made the acquaintance of Sampson while he was performing his feats of strength at the Royal Aquarium Music hall. It is stated that she became enamoured of him and sought to become constantly in his company. Her husband separated from her and applied for a divorce on the ground of adultery, naming Sampson and one Turner as the co-respondents. During Mrs. Bernstien's acquaintance with Sampson, it is stated that he borrowed money and jewelry from her for certain purposes, promising to return the valuables when these purposes were accomplished. The day previous to Sampson's departure from England for New York he visited Mrs. Bernstien at her lodgings and taking the money and jewels out of his pocket, laid them on a table in Mrs. Bernstein's room. She barely glanced at them when he first showed them, and then thought no more about them. Sampson made a short call and then said farewell. Mrs. Bernstien going to the door of her lodging with him and wishing him bon voyage. Some hours after Sampson's departure Mrs. Bernstien went to the table on which her money and jewels had been deposited by the strong man, but to her amazement found they had vanished. After due reflection Mrs. Bernstien made up her mind that Sampson had, by some sleight of hand performance, taken possession of the valuables after he deposited them on her table. She was greatly incensed at this "mean trick," and lodged a complaint with the police authorities. A warrant was issued for Sampson's arrest, but before it could be served the man had sailed for New York. At the beginning of the court proceedings this morning Mrs. Bernstien took the witness stand. She presented a charming picture attired in a close-fitting tailor-made gray wollen gown, which set off her plump figure to much advantage. On her head she wore a hat of the new spring pattern, the graceful arrangement of flowers and laces giving her pretty face additional charm. Mrs. Bernstien gave her testimony in a clear voice. She was self-possessed and confident in manner, and did not appear to mind in the least the hundreds of curious eyes that were gazing at her.

CHARTER ELECTIONS.

The Republicans of New York are Ahead.

NEW YORK, March 3.—Charter elections were held in many of the cities and towns in this state Tuesday. The returns show large republican gains. The Albany Evening Journal (rep.) has compiled results on supervisors in elections thus far throughout the interior of New York. They are as follows: Republican supervisors, 321; democratic supervisors, 272. In 1891 the same counties elected 426 republicans and 332 democrats.

BANK ROBBERY.

Burglars Succeed in Blowing Open a Safe in Coldwater—$20,000 Stolen.

COLDWATER, Mich., March 3.—The Coldwater National bank was robbed last night. The estimated loss is $20,000. The robbers drilled the outer door of the vault and with a punch broke the lock off. The middle door was secured with a padlock. This was probably broken with a sledge. The inside vault contained one burglar-proof combination lock safe, and also a steel safe with time lock. These were drilled and charged with dynamite. The doors of both safes were blown completely off, wrecking both safes and leaving nothing but a shell of each. The concussion shattered the wooden shelves inside the vault and scattered the contents of the safes and the shelving about the floor. There was no one sleeping in the bank and no one heard the explosion. The discovery of the robbery was not made until the bank was opened this morning. There is no clew to the robbers.

The robbers took every bit of cash, including bills, silver and pennies, they could find. They also secured $10,000 worth of Philadelphia and Reading railroad bonds, a private deposit. The burglars gained access to the bank by prying up an outside window.

GOING TO EVANSVILLE.

The City Hall Committee and the Architects Will View a City Building.

This evening, at 8:17, Mayor C. A. Zollinger, Councilmen Herman Michael, Peter Eggemann, George W. Ely, Fred Boltz and W. D. Meyer, composing the city hall committee, and M. S. Mahurin, the architect, will leave over the Wabash road for Evansville, to view the city hall of that city. It is expected that an inspection of the building will give the committee ideas that may be valuable to them. The Evansville structure cost about $50,000. The building to be put up in Fort Wayne will cost $60,000, and perhaps more. The committee will be absent two days.

SHOT BY HIS WIFE.

The Ending of a Divorce Suit at Detroit.

DETROIT, Mich., March 3.—Charles N. Ayers was shot and mortally wounded last night by his wife, whose suit for divorce was dismissed yesterday on a technicality. Ayers last evening went to his home to get some of his goods. His daughter remonstrated with him, but in vain, and an hour later his wife returned. She and her husband had some words and a shot was heard. He emerged upon the porch, she following with a smoking revolver in her hand. Her first shot had missed and she leveled the weapon at him again, sending a bullet through his left lung and mortally wounding him.

ATLANTA, Ga., March 3.—Harry Gray, son of a prominent citizen of this city, was fatally shot last night by a policeman, while in the act of robbing a neighbors house. The boy had always borne a good reputation heretofore. He is but eighteen years old.

THE BIG FOUR MULCTED.

Jessie VanBuskirk Gets Damages for Injuries.

GREENSBURG, Ind., March 3.—A verdict for $9,225 was rendered today in favor of Miss Jessie VanBuskirk, one of the three women who were run down by a Big Four freight train while crossing the railway track near this city last fall. The amount sued for was $10,000. The evidence showed that the plaintiff sustained vital injuries, permanent to her sex. The two cases already disposed of will be taken to the supreme court. This makes $21,525 in damages for this single accident.

"NOT A TRUST"

Is the Plea of the Defendants in the Whisky Cases.

BOSTON, March 3.—C. A. Prince, attorney for the defendants in the whisky trust cases, says if the decision in the court here is against them they will appeal to the United States supreme court. They are not conducting a trust, but a company which owns and has paid for certain property. It does not control the entire output, is not a monopoly and has not conspired against competitive interests. Mr. Prince does not think the cases will come up Monday, as there has not been time to prepare the case.

HOT TIME AT AUBURN.

Congressional Conventions Throughout Indiana Elect Delegates to the National Convention.

The district conventions to select delegates to the national republican convention are being held throughout the state today. Each of the thirteen districts will select two delegates and two alternates to the convention. The following are the places of meeting.

First district, Evansville; Second, Washington; Third, Seymour; Fourth, Greensburg; Fifth, Indianapolis; Sixth, New Castle; Seventh, Indianapolis; Eighth, Brazil; Ninth, Frankfort; Tenth, Logansport; Eleventh, Bluffton; Twelfth, Auburn; Thirteenth, Warsaw.

The meeting for this district, which is being held at Auburn, is attended by a large number of Fort Wayne republicans. They left the northside depot at 9 o'clock this morning, many of them going on a special train chartered by R. T. McDonald, who was one of the candidates before the convention for presidential delegate from this district. Mr. McDonald is understood to be an anti-Harrison man, and those going on this train were expected to work for his nomination at the convention. The Harrison men went to Auburn on another train, which left the northside depot about the same time that the McDonald train did. They were joined in this city by a number of delegates from the country and other counties. The friends of President Harrison are very sanguine, and they say he will be indorsed by every convention in the state, and a solid Harrison delegation selected. It is understood that no contest will be made in any district, with the possible exception of the Twelfth.

There are a number of very strong Cullom men at Fort Wayne and in several other localities throughout the district, but the letter of Mr. Blaine, declining to be a candidate, appears to have taken all the spirit out of the opposition.

A SENTINEL correspondent, who accompanied the party to Auburn, sends the following special.

AUBURN, Ind., March 3.—The convention met at 2 o'clock. There is a bitter fight between the Harrison and anti-Harrison men, and a hot time is witnessed in the convention. At 2:30 o'clock no nomination for delegate had been made.

PROBABLE MURDER.

The Strange Death of an Inmate in the Defiance Infirmary Causes Great Excitement.

Special to THE SENTINEL:

DEFIANCE, Ohio, March 3.—The citizens of this city and Hicksville are wild with excitement and indignation over what appears to be the brutal murder of a young man, aged twenty years, who has been confined in the county asylum six miles from this city, and near Hicksville, Ohio. Superintendent Phillips, of the infirmary, reported to Mr. Frech last Friday that his son Joseph had died that day, and requesting him to take charge of the remains if he desired. The father, accompanied by another son and a neighbor called at the infirmary for the remains, which they found had already been placed in a casket and sealed. The father was forbidden to open the casket. He, however, insisted on opening it in the presence of the coroner. It was discovered that the boy had a deep gash in his forehead, which Superintendent Phillips explained was caused by the boy falling down stairs, and the body was buried Sunday. The neighbor mentioned, a Mr Huber, suspicioned foul play, and yesterday filed papers before a justice and had the body exhumed last night. It was found that at least thirty cuts with some sharp instrument had been made on different parts of the body, and the breast completely crushed in as if done by some one jumping on the victim with their feet. The coroner's jury is now deliberating, and warrants of arrest for the attendants will be served today. It is not believed that Superintendent Phillips was implicated in the murder.

FELL IN A FIRE.

The Wife of an Insurance Agent Meets a Horrible Death.

COLUMBUS, Ind., March 3.—At noon yesterday, Mrs. Kinney, wife of Emanuel H. Kinney, traveling agent in this state for the Evansville Fire Insurance company, fell face foremost into an open grate in an epileptic fit and her head was almost literally burned off. There was no one in the room at the time and the unfortunate woman lay in the position in which she fell, while the flesh burned away from her head, exposing the facial bones. Two years ago, while visiting her relatives in Texas, she fell in a fit near a fire and came near being burned to death. She was thirty-seven years old and the mother of seven children.

The members of the R. S. M. and W. club gave a reception at the home of Miss Alice Campion, 245 South Harrison street, in honor of her guest, Miss Swegman, of Delphos, Ohio. An elegant six course lunch was served at 10 p. m., after which the guests tripped the light fantastic until midnight.

TWO JURY VERDICTS.

The Shepler-Fulton Case Ended—Phil Powers Acquitted of Larceny—Court News.

The superior court jury has been discharged for the term.

John Buell and Ida F. Clark, Luther Taylor and Emma Clem have been licensed to wed.

The next term of the superior court will commence on the 4th of April.

The circuit court jury, in the case of the state against Phil Powers, who was charged with larceny, acquitted the defendant.

The superior court jury, in the case of Shepler against Fulton on a note, returned a verdict for the plaintiff for $1,548, and also $25 attorney fees.

The case of Mossman vs. Aldrich, in the superior court, has been dismissed. The case of Ph. Miller against the Pennsylvania company is set for April 4th, and the case of Schnelker vs. Monning and Trentman will follow.

The defendant in the Fiegel-Satorius bastardy case was bound over to the circuit court, by Justice France. He gave bond for $100 and was released from custody. Judge Dawson is considering the matter of the opening of High street. A motion has been made to dismiss the case, because the appeal bond was not filed within the statutory limitations.

Mike Koehler, the distinguished orator, was arrested last night for drunkenness. The mayor sent him to jail. George Werner, who assaulted David Cope, was fined $5 and costs and sent to jail.

Henry Westrumb was fined $1 and costs for provoking William Martin, by Justice France.

Judge Dawson divorced Mary Keller from Fred Keller, gave her $250 alimony and the custody of their child.

The last will of James Vincent is filed. He leaves to Mary, Elizabeth and Hannah Taylor a joint interest in lots 15, 16 and 17, on Summit street; to Ellen Stouder, $1,000, Mahala Taylor, $500 and to her the rest of his estate. James M. Stouder is executor.

Through his attorneys, L. M. and H. W. Ninde, William H. Beverforden, administrator of Charles Ortman, deceased, sues the New York, Chicago and St. Louis railroad company for $10,000 damages. The complaint says that Charles Ostman, a Nickel Plate fireman, was on April 8, 1891, killed at Burr Oak, Ind., while in the discharge of his duty. As a freight train was on the alert, with his head out of the window, when it came in contact with a chute to a cattle pen belonging to the defendant. The obstacle was but five inches from the cab and the result was he was drawn from the engine and killed. The writ holds that the defendant knew of such a dangerous obstruction and for the period of three years refused to put the same in a less dangerous condition. The deceased was in the discharge of his duty and hence no blame of his own. A widow and three infant children are left without support. For all this the plaintiff demands $10,000 damages.

MANY of the local republicans are at Auburn today attending their district convention.

THE entire Indian population of this country is 250,000, and they hold 90,000,000 acres of land.

THIS is a sort of republican day in Indiana. They are holding district conventions throughout the state.

A BILL prohibiting prize fighting passed the Iowa house Monday. Heavy penalties are imposed for violations.

TWENTY-ONE states and territories have made no appropriations for the World's fair. The greatest delinquency is in the south.

THERE are to be 1,776 delegates to the fourth party convention, and it is to be held on the Fourth of July. The convention ought to be very patriotic.

THE manufacture of tin plate which fell off so suddenly after the Ohio election last fall has been resumed, the presidential campaign is at hand.

THE Trades assembly of Marion is boycotting the opera house in that city, because Prof Fred Johnson, leader of the orchestra, will not join the Musicians' union.

THE bill prohibiting free passes for legislators came up on a motion to amend, in the Massachusetts house of representatives. The house refused to amend it, and it now goes to the governor.

PROFESSOR FOSTER holds that the sun is not a burning star but a body very much like the earth, with its seas, continents, mountains, valleys, clouds, and storms, all affected by the very same laws and in the same manner as are the various parts of our earth.

Ex-Senator Ingalls, of Kansas, says he is again in politics, not as a candidate for office, but to work for the party. "Not for office," the ex-senator is careful to say. That's the way all the politicians put it, but they would be very glad to be "forced on to the track as a candidate."

THIS congress has produced some very rapid speakers, but the fastest of them all, it seems, is Representative Johnson, of Indiana, who delivered a long speech in the Craig Stewart contested election case at the rate of 260 words a minute. The only other man in the house who can approach Johnson in rapidity of utterance is Catchings, of Mississippi, whose usual rate is 230 words a minute.

THE recent civil war in Chili cost the victors, the congressional party, $15,000,000, according to a recent estimate made by the Chilian newspapers. Of that amount $885,000 was contributed by Senora Dona Juana Edwards, the mother of the minister of finance, out of her private fortune. The cost of the war to the Balmaceda partisans has not been figured out, perhaps because they lost everything, and it is a big thing to estimate on.

CONGRESSMAN BYNUM, of Indiana, was interviewed by the New York Herald in reference to the choice of the Indiana democracy for president. He said: "In Indiana, it is Gray first. Cleveland second. I have every reason to believe the delegation will stand by Gray and secure his nomination if it is possible to do so. I am certain Indiana's delegation will not break away from Governor Gray, unless there is a protracted struggle in the convention and it is made manifest that his nomination cannot be brought about."

CONCERNING the distinguishing peculiarities of some of the congressmen, the Louisville Courier-Journal says: "Reed, of Maine, is the largest man in the house; Wheeler, of Alabama, is the smallest, and Curtis, of New York, is the tallest. Mills, of Texas, or Turner, of Georgia, is the ablest, and Allen, of Mississippi, is the wittiest. Cummings, of New York, or Caruth, of Kentucky, or Henderson, of Mississippi is the best orator; Holman, of Indiana, is the oldest, and Bailey, of Texas, is the youngest. Boutelle, of Maine, is the handsomest; Bingham, of Pennsylvania, is the best dressed, and Jolly, of South Dakota, is the homliest. Springer, of Illinois, is the most garrulous, Wilson, of West Virginia, the most learned, and and Culberson, of Texas, the best lawyer. Bynum, of Indiana, is the most aggressive. Burrows, of Michigan, the best parliamentarian, and Simpson, of Kansas, the readiest. McMillin, of Tennessee, is the best debater; Rife, of Pennsylvania the fattest, and Tucker, of Virginia, the thinnest. Tim Campbell, of New York is the best natured and Enloe, of Tennessee the most impetuous. Moody is the most taciturn that is a quality Uncle Sam does not keep on tap in his house of congress."

JOHN D. ROCKEFELLER.

Who Gave $2,600,000 to the University of Chicago.

Professor W. Harper president of the University of Chicago, has been granted $[illegible] by wealthy Baptists.

Of these John D. Rockefeller has given what most people would regard as his full share in a magnificent donation of $2,600,000. The last million was delivered on March 1, with accrued interest from December 1.

Mr Rockefeller is president of the the largest corporation in the world, namely, the Standard Oil Trust. He is one of the wealthiest men in the United States, although still young in the years of middle life and a poor man not many years ago. His residence, which is in New York, is under the observation of one of a corps of private policemen every moment of the day and night, to protect him from the attention of "cranks." He is an earnest member of the Baptist denomination and gives liberally to struggling churches belonging to it. People speak of his wealth as among the scores of millions, but they don't know. Mr Rockefeller keeps his own counsel.

NEW CITY HALL.

Plans of Wing & Mahurin Finally Accepted by the Council.

The fifteen councilmen present at last night's council meeting voted unanimously for the acceptance of the plans of Wing & Mahurin for the new city hall, thus endorsing the action of the committee. Some little opposition was raised against definite action. Three protests against accepting plans and proceeding immediately were submitted. The first was signed by Montgomery Hamilton and twenty-one others; another by S. C. Lumbard and twenty others, and the third by S. C. Lumbard and four others. Mr. Hamilton urged further consideration of the council before a final decision to proceed with the work. He thought the matter was being pushed through too hastily. Some, he said, were in favor of the court house site, others the engine house and many for no place in particular. Councilmen Michael, Boltz, Meyer, Cody, Eggeman, Smith and others spoke in defense of immediate action that now was the time to act, as delay would avail nothing. Mayor Zollinger called Councilman Michaels to the chair and made a speech in which he said he felt it was right to go ahead with a new city hall at once. The council then received and filed the petitions, and when it came to adopting the plans of Messrs. Wing & Mahurin were accepted by a unanimous vote, the following councilmen being present: Boltz, Buck, Cody, Eggemann, Ely, Fox, Hazzard, Kelker, Keinz, Meyer, F. C. Meyer, Michael, Scheffer, Schied and Smith. This settles the city hall question. The plans will be prepared at once and contracts soon let.

Vile and Unworthy

Of consideration are nostrums of which it is asserted—and there are many such—that they cure immediately bodily ailments of long standing. There are none such that can. Chronic disorders cannot be instantaneously removed. Gen[illegible] is the use of a genuine medicine, such as Hostetter's Stomach Bitters, will eradicate chronic physical evils. Not the least of the evils in the force of its opposition to medicine is constipation, to the removal of which if persisted in, the Bitters is particularly adapted. [illegible] of the bowels is a company which should be dealt with early and systematically. So are its usual attendants, liver complaint and dyspepsia. For these, for malaria, rheumatism, kidney trouble, and more recently the grippe, this highly and professionally commended medicine is an undoubted specific. Nothing can exceed it, moreover, as a means of imparting strength to the feeble and nervous.

SENATOR CARLISLE.

The Kentucky Statesman Prominently Named for the Presidency.

Senator John G. Carlisle, of Kentucky is prominently mentioned as one of the men whose names may be

brought before the democratic national convention as a candidate for president. The senator, by men of both parties esteemed as a sagacious and well equipped statesman, is a native of the state of which he is the distinguished ornament. He was born in 1835, received a fair education, taught school, read law and was admitted to the bar. Subsequently he entered public life as a member of the state house of representatives. He was elected to the state senate in February, 1866, and and in 1869. In 1871 he was elected lieutenant governor of Kentucky and served until September, 1875. He was a member of the house of representatives at Washington continuously from the beginning of the Forty-fifth congress until his election to the United States senate in 1890. Senator Carlisle was speaker of the Forty-eighth and two successive congresses.

A GREAT MAGAZINE.

The Century Program in 1892—A New "Life of Columbus"—Articles for Farmers, Etc.

That great American periodical, The Century, is going to outdo its own unrivaled record in its program for 1892. The leading novel of the year is

"THE NAULAHKA,"

by Rudyard Kipling, the famous author of "Plain Tales from the Hills," written in collaboration with an American writer, Wolcott Balestier. In the March number begins a splendid story of life in Dakota, "Ol' Pap's Flaxen," by Hamlin Garland, the well known author of "Main-Traveled Roads," etc., etc., and in May will begin another novel of the great West by Mary Hallock Foote. Both these last-named stories will be illustrated. There will also be a great number of short stories by the best American story writers. There will be a valuable and suggestive series of articles

OF GREAT PRACTICAL VALUE TO FARMERS,

treating especially of the relations of the government to the farmer, what it is doing and what it should do. This series will include contributions from officers of the Department of Agriculture, and other well known men will discuss "The Farmer's Discontent," "Co-operation," etc., etc. The April Century has in it an article on "Our Common Roads," which will be of the greatest practical value to all who are interested in good roads.

A celebrated Spanish writer is to furnish a "Life of Columbus," which will be brilliantly illustrated, and the publishers of The Century have arranged with the managers of the World's Fair to print articles on the buildings, etc., written by a practical architect. Both these attractive series of papers will begin in the May Century.

A series of essays on Poetry, contributed by

EDMUND CLARENCE STEDMAN,

Is among the most valuable features of the year. These essays are popular as well as instructive, and many schools will arrange to use The Century as a supplementary reader during their continuance.

To get The Century send the yearly subscription price ($4.00) to The Century Co., Union Square, New York, N. Y. No cultivated home can afford to be without it.

"Realistic."

The fashion in literature which consists in imparting vividness to a narrative by writing in very short sentences occasionally produces amusing results. In a "realistic story," which is as yet in manuscript, the following thrilling passage occurs:

"Perkins entered a railroad station. In a corner of the room sat four persons.

"They were engaged in low conversation. Three of them were men. One was a woman."

After a somewhat long and minute account of the appearance of these people, the narrative goes on:

"Suddenly the door opened. A peddler entered. He was a Jew. He carried a basket.

"He approached the persons in the corner. The woman bought of him three red cotton handkerchiefs. One of them was white."—Youth's Companion.

He Ate Too Much.

A colored couple, evidently belonging to the upper crust of Thompson street colored society, were walking up Sixth avenue, when a gentleman who was walking behind them overheard the following conversation:

"Adolphus, does yer still entertain dem same tender sentiments for me you sed last night? Am I yer honeysuckle an yer dark eyed giraffe yit?"

"Of course, I does, Miss Julian."

"Den don't feed like a hog at de supper tonight of yer wants ter make folks b'l'eve yer lubs me."—Texas Siftings.

TOO PROGRESSIVE FOR HIM.

I am somethin of a vet'ran, just a-turnin eighty years—
A man that's hale an hearty an a stranger tew all fear;
But I've heard some news this mornin that has made my old head spin,
An I'm goin tew cuss my conshuns if I never speak ag'in.

I've lived my fourscore years of life, and never till tew day
Wuz I taken fer a jackass or an ign'rant kind o' jay,
Tew be stuffed with such durned nonsense 'bout them crawlin bugs an worms
That a kittlin human bein's with their "mikroscopic germs."

They say there's "mikrobes" all about a-lookin fer their prey;
There's nothin pure tew eat nor drink, an no safe place tew stay;
There's "miasmy" in the dewfall and "malary" to the sun;
'Tain't safe to be outdoors at noon or when the day is done.

There's "bactery" in the water and "trikeeny" in the meat,
"Ameeby" in the atmosphere, "calory" in the heat;
There's "corpussels" an "pigments" in a human bein's blood,
An every other kind o' thing existin sence the flood.

Terbacker's full o' "nickerteen," whatever that may be,
An your mouth'll all get puckered with the "tannin" in the tea.
The butter's "oly-margareen"—it never saw a cow,
An things is gittin wus and wus from what they be just now.

Them bugs is all about us, just a-waitin for a chance
Tew navigate our vitals an 'naw us off like plants.
There's men that spends a lifetime huntin worms, just like a goose,
An tackin Latin names to 'em an lettin em 'em loose.

Now I don't believe sech nonsense as I'm not a-goin tew try.
If things has come tew such a pass I'm satisfied tew die.
I'll go hang me in the suller, for I won't be such a fool
As to wait until I'm placed by a "animally cool."

Dicky—Wh-what's the mattah, old fellah? You look weally devilish!

Cholly—Feel that way, old chappie—been wejected.

Dicky—You don't mean it? Why, I introduced you to her myself. When was it?

Cholly—Lawst evening. I came right back to town—fellahs all saw my hair was wumpled and feared I'd do something violent, don't you know—so they sent for the police. They didn't dare stay in the room with me. Policeman came in and looked at me. Then he said that he'd need re-enforcements; heard him swear awfully. He went back to the station, but I guess the re-enforcements were afraid, for they never came.

Dicky—Pwomise me not to commit suicide, old chappie.

Cholly—I've been waiting for you to make me pwomise that, old fellah. If you hadn't I'd have done it, sure.

Dicky—Awfully lucky I came in.

Cholly—Saved my life.

Dicky—What are you going to do about it, deah boy? Of course you must do something.

Cholly—Going to wevenge myself. Told her so—fwitened her to death, I assuah you.

Dicky—How are you going to do it?

Cholly—Going to wait till she is engaged to some one, and then I'm going to cut him.

Dicky—What, with a knife?

Cholly—Oh, deah me, no. Just cut him.

Dicky—Oh, that will be awful.—Life.

She Wanted to Give It Away.

George had proposed and been accepted for several weeks, but the girl's esteemed parents had not been informed of it and they were exceedingly anxious and curious to know how matters stood. The other morning the mother began a little detective work on the daughter.

"Fannie," she asked cautiously, "hasn't George Smugglings been here every night this week?"

"Yes, mamma, every night so far," responded the dutiful Fannie.

"And this will be Saturday night?"

"Yes, mamma."

"He seems to be coming pretty often, doesn't he?"

"It doesn't seem to be very often to me, mamma."

"Oh," and the old lady elevated her eyebrows curiously. "Did you hear your father when he came in last night?"

"No, mamma," said the girl demurely.

"Oh, you didn't?" replied the mother quickly. "Didn't he see you sitting in George's lap as he came in?"

"No, mamma," and the girl never turned a hair.

"Well," snapped the old lady, feeling that she was foiled, "I'd like to know why he didn't."

The girl smiled a gentle, forgiving, trusting, happy little smile.

"Because, mamma," she whispered, coming over to her, "because the parlor door was shut."—Detroit Free Press.

The Sham and the Real.

Every good thing has its imitators, every genuine article its counterfeits. The Ammonia and Alum Baking Powders sold over the counters are no more like Dr. Price's Cream Baking Powder, than the paste is like the real diamond, or a counterfeit is like one of the old master's genuine paintings.

When greedy and merciless manufacturers claim their adulterated and harmful baking powders are as good as Dr. Price's, they know they are not telling the truth. These people know they are destroying the stomachs and the complexion of the consumers, and there are many grocers recommending such powders over their counters—knowing same to be injurious and worthless—simply to make a large profit.

Dr. Price, a concientious physician, has spent a lifetime in perfecting and popularizing his Cream Baking Powder, the only Pure Cream Tartar Powder now to be obtained.

Multitudes of imitators all over the land have sprung up, not to imitate the purity of Price's Cream Baking Powder, but to see how cheap they could make their counterfeits and hoodwink the public.

Some use Ammonia and others Alum, but all these shams cry in chorus, "Buy this, its just as good as Dr. Price's and much cheaper.

Price's Cream Baking Powder is the standard for purity and perfection the world over, and is beyond comparison.

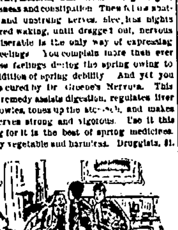

Dr. Price stands for Pure Food and a foe to all shams.

ABSOLUTELY PURE

ELEVATED TRACKS.

The Pennsylvania Officials are at Chicago Discussing Them—Local and Personal.

Tuesday last THE SENTINEL mentioned the visit of the Pennsylvania officials to Chicago. Concerning these gentlemen the Chicago Times yesterday said: "It looks very much as though the Pennsylvania people were taking active steps to elevate their tracks in this city. Five prominent officials of the road arrived in town yesterday to investigate as to the feasibility and cost of the improvement. They were Thos. Rodd, chief engineer of the system west of Pittsburg; T. J. Brooks, Joseph Wood, W. J. Becker and Henry Sproul, the latter four of the engineering and mechanical department. To-day these gentlemen will hold a conference with the city officials at the office of the commissioner of public works, from which some important developments will in all probability ensue. Engineer Rodd has visited Chicago on several prior occasions, looking over and examining the company's terminal facilities here upon which an expenditure of several thousand dollars has been contemplated. These improvements have been delayed, however, owing to the unsettled condition of the question of street crossings. The Pennsylvania company's officials have already indicated their willingness to construct viaducts at dangerous points, and to protect their right of way by other devices to prevent accidents. Their scheme did not meet with the approval of the city authorities and was not carried out. It is believed, however, that there will be no trouble about elevated tracks. The great question is whether or not tracks can be elevated at a reasonable expense. If anything is done at all it will be put in to stay. The Pennsylvania already has elevated tracks in Philadelphia and Jersey City, but conditions in those cities are said to be different from what they are in Chicago. Still there is one feature that forbodes good. The tracks for quite a distance south of the Union depot are already under viaducts, and this, it is claimed, would not necessitate elevation north of the river—the most difficult section of the terminal. These officials will also have a consultation with the officers of other roads coming in here to see if a combination can not be made whereby one elevated road can be built into the city from the southwestern portion which can be used by all."

CHEAP RURAL RAILWAYS.

Is not electricity to furnish the motive power suitable for numerable little railways which will run upon or alongside of the wagon roads and, without injury to persons or property, afford the means for sufficiently rapid transit of both freight and passengers, at moderate rates? So we strongly believe. Already the idea has been put into practical effect. In Maryland an electric road eighteen miles long is being built through a fine farming country not reached by steam lines, and it is intended for freight as well as passenger traffic, and its little freight cars of five tons' capacity will handle the farm and mill products of the country along the line. In California an electric railway is under construction from San Francisco to San Jose, a distance of fifty miles, and although it will run parallel to two steam railways, and therefore can not be classed as a necessity for farmers, it is claimed that by paying special attention to local traffic and by picking up bussiness where it is offered it will be able to do well. In several other parts of the state, especially where railway facilities are lacking, electric roads to connect rural regions with towns are under way or proposed and the same is true in other parts of the country.

SOME RAILROADS IN PROSPECT.

Only nine miles more and the Adirondack and St. Lawrence is completed between Malone and New York.

The grading has been completed on the ten mile belt at Findlay, Ohio, and track laying begins March 3.

The Mooney Lateral is the name of a company that has been organized with a capital stock of $100,000, to connect the Big Four with the tanneries at Columbus, Ind.

The Ducktown and Cleveland is a short line to be built soon in Tennessee.

The Chicago, Burlington and Quincy will double-track its line from Burlington to Council Bluffs, Iowa.

The Burlington, Cedar Rapids and Northern has surveyed a line from Manly to Forest City, Ia., and may build a branch from Rockford to Mason City.

A corps of engineers is surveying the Cleveland, St. Louis and Kansas City from Hamburg to Booneville, Mo.

MINOR MENTION.

The railroad reading rooms at Logansport will be dedicated next Sunday.

Conductors John Uran and Taylor, of the Nickel Plate, have exchanged runs.

Nickel Plate Conductor Ketselman has returned to work after a few days' rest.

Nickel Plate Brakeman Scofield has resumed his run, and Brakeman McVeigh is now enjoying a vacation.

H. Schoppman, the Pittsburg boiler maker, is sick.

H. Schmidt has resigned his position in the Pittsburg boiler shop.

W. Dick, fireman on the Grand Rapids, is sick and off duty.

J. H. Simonson, of Rhinesmith & Simonson's, went to Chicago yesterday.

Engineer C. Sweeney and Fireman J. O'Ryan, of the Pittsburg, are on the off duty list.

Telegrapher Lapham, of Fostoria, Ohio, has accepted a position as night operator at the Nickel Plate yards.

C. Kruse, George Kruse and Frank Hasse returned to work in the Pittsburg car shop this morning, after being on the sick list.

Thirteen of the striking machinists at Indianapolis have left that city for New Albany, where they secured work in the railway shops.

F. Stonebrook, of the Pittsburg paint shop, was scalped by the Red Men last evening, and is off duty rehearsing war songs and dances.

F. VanDusen, assistant to the general passenger agent of the Pennsylvania lines passed through the city last evening on the limited, bound for Pittsburg.

Henry McDole, an employe in the Pittsburg planing mills, had a toe mashed last evening by a heavy piece of timber falling upon his foot. He is unable to work.

Moses McGuire, of Kokomo, formerly in the employ of the Lake Erie and Western railway company, is suing for $5,250 damages for personal injuries received in an accident.

It is now stated that a general ousting of officials will follow the resignation of President Saul, of the Chicago and Eastern Illinois, as their methods of doing business have not coincided with the views of the powers which elected the successor of George Saul.

The railroad hospital of the Wabash at Peru, is proving a blessing to trainmen who are injured and have no homes to go to. Men off of the Lake Erie and Western, as well as the Wabash, are treated at this institution, which now has over thirty sick and injured to care for.

The following trainmen who were on the "off duty" list yesterday, reported this morning: Engineers A. J. Ford, W. L. Scott, W. Devany, J. Voirol, W. Beck, J. G. Carman, C. Lehr, and H. Westerman; Firemen C. Welsh and H. Racine. Some were sick, while others were attending a funeral. All are employed on the Pittsburg.

The new Grant locomotive works, near Chicago, are nearly completed and June 1 they will be in operation. The whole system of the works is on an improved plan. The tools will be new and of the most approved type. The works will be lighted by electricity, and electric motors will be used for driving the traveling cranes, transfer tables, etc.

The monthly bulletin of the Pennsylvania Voluntary Relief association for January is the largest yet issued. During that month there were twelve deaths, 358 accidents and 1,121 sick benefits paid as follows: For deaths, $4,000; accidents, $2,318.75, and sickness, $6,003.60, making a total of $10,072.35. This includes only the Pittsburg, Fort Wayne and Chicago railroad.

Filial Devotion.

A millionaire who had gone to an almshouse to visit his father met a neighbor there, who was greatly surprised.

"What!" said the neighbor, "you do sometimes visit your father?"

"If our situations were reversed," said the millionaire, "I am sure he would visit me. The old man has always been rather proud of me. Besides," he added softly, "I had to have his signature, I am insuring his life."—San Francisco Examiner.

A Causeless Warning.

His mother had warned him particularly against making any allusions to Uncle Philip's hair.

At the dinner table he looked long and searchingly at his avuncular relative and then remarked plaintively, "I don't see why you didn't want me to say anything about uncle's hair, mamma—he ain't got any, anyway."—Once a Week.

David Burke, an inmate of the Delaware county asylum, attempted to drive across the Big Four tracks in front of a rapidly approaching passenger train. The vehicle was struck and demolished and Mr. Burke was hurled forty feet feet away and fatally injured.

Jeremiah Townsley and wife, of Crawfordsville, are seriously ill with the grip. Mrs. Townsley, while delirious of fever, arose from bed and assaulted her husband with a stove stick. The interference of a son prevented a dangerous result.

Have No Equal.

ALLCOCK'S POROUS PLASTERS have attained a world-wide reputation solely upon their superlative merits. They have many would-be rivals, but have never been equalled or even approached in curative properties and rapidity and safety of action. Their value has been attested by the highest medical authorities, as well as by unimpeachable testimonials from those who have used them, and they are recommended as the best external remedy for weak back, rheumatism, sciatica, colds, coughs, sore throat, chest and stomach affections, kidney difficulties, weak muscles, strains, stitches and aches and pains of every description.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Allcock's, and let no solicitation or explanation induce you to accept a substitute.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Swiss authorities are arranging for experiments with carrier pigeons in connection with the postal service.

What Shall I Take?

Why Simmons' Live Regulator, of course. It can't be beat in any attack of Indigestion. Biliousness, Sick Headache, or Consumption. It gives quick relief, and if continued for awhile will completely cure these ailments. The Regulator comes in liquid and powder form. The power is wonderfully convenient for the vest pocket. A pinch of the powder and a swallow of water leaves no taste and works effectually.

Getting His Money's Worth.

Ben Wright, who died the other day, was the most companionable man I ever met. The oyster house which he opened, at the corner of Brattle and Court streets, for years was a Boston institution.

I remember going into Wright's one night a dozen years ago. Seated at the table next me were four newsboys, accompanied by two girls who sold papers. The waiter refused to serve them.

"What's the trouble, my little men?" said Ben Wright, who overheard the conversation.

"Why, this 'ere duffer says he won't give us dat what we wants."

"What do you want, my boy?"

"I want a great big stew, with plenty of oysters and six spoons."

Wright said "All right," quietly gave the order and when it was ready served the boy with a big stew, a large plate of crackers and a platter of pickles. The six spoons were there.

The stew was passed around, the spokesman seeing that each had his or her share. In a few minutes it had entirely disappeared. The leader of the party then walked up to the desk and said: "How much stuff, Ben? I tell you dat was cracky."

"Never mind the stuff, my boy; have the stew with me," said Wright kindly.

"Don't want no stuff?"

"No, my boy."

"Well, repeat dat order quick."

No one laughed heartier or enjoyed the retort more than honest Ben Wright.—Boston News.

How She Took It.

Eunice is a bright little girl with a taste for the stage, and some time ago she was one of a lot of children in kirmess dances. When the kirmess was given it happened that all of the children's dances, except the particular one in which Eunice took part, were encored, and her mother felt some anxiety that Eunice would feel the slight. She was ready with some good excuse when Eunice should appear, but there was no need of it.

"Oh, mamma," she exclaimed, as she rushed to her mother all excitement, "ours was the best of all. All the others had to do theirs over again and we didn't."—Detroit Free Press.

A Disgusted Monarch.

It happens occasionally that even the most powerful monarchs are unable to fulfill their wishes. On one occasion Alexander the Great, who was born 323 B. C., wishing to have his photograph taken, went to the studio of Heleodoros & Bros., on the corner of Broadway and Park place.

Upon making known his wish Heleodoros called Alexander's attention to the fact that photography had not yet been invented.

"I forgot all about that," remarked Alexander. "I guess I'll have to wait awhile," and he walked out very much disgusted.—Texas Siftings.
